VOL. XVI.

STANFORD, KY., FRIDAY, AUGUST 31, 1888.

NO. 58

HUSTONVILLE.

The third examinations of white teachers will be Friday, Sept. 7 and colored Sept. 14.

Dr. Brown's "dry moon" has proved a stupendous fraud and the doctor has nothing to say.

Our Monday's mail was thrown out at Moreland on the rail, as usual, and ground to powder. I was not expecting remittances.

The Colored Teachers' Institute will commence Monday, September 3d, at Stanford, and continue five days. A full attendance of all who have certificates and all who expect to be examined during the present school year is absolutely required for the full term. Prof. Hathaway is expected to conduct the exercises. The colored teachers of Garrard county will unite in the work of the Institute.

Mrs. Almer Cheamont, of St. Louis, is visiting her Thomson relatives. Mr. Swain, of the Powers staff, has moved his family to the Civil house. Mrs. Dr. Hays, of Kansas, whose health is greatly improved by her visit, expects to leave for home next week. Jessie Dunn and wife, of South Carolina, who have been making a long visit to the old folks, have arranged to start home this week.

I received a paper from Dan G. Slaughter yesterday, which exhibits in glowing colors a new feature of his versatile genius. The paper is what is generally known as a "broadside," but this term does not describe it. It is rather a general bombardment, and does not leave a gun of the enemy mounted, nor a stick of his defenses standing from keel to sky-scraper. Dan does not fight for victory only, but for the utter demolition of the adversary. In this case he dealt such Pond deroms blows that his antagonist is not only Slaughtered, but so completely disintegrated that "the dust and ashes that remain" are simply im-Pond-erable. It is probable that the veteran will Pond-er long for a subject before he ventures to select another text from the Book of Daniel.

HUBBLE.

James Robinson is building a tobacco barn.

E. Bigney has done a good job on the Bush Branch pike by ditching it.

Miss Mary Hubble is visiting in Lancaster. Wm. Grever has been on the sick list.

Entbanks Bros. & Hubble bought the corn in the field on 40 acres of Hester at \$1.35. They are going to feed about 200 hogs.

Plenty people attended the colored Fair to make it interesting, but not enough to make the stockholders any money. The stock was made up of 10 shares of \$5 to the share, and the Company lost \$2.

Stone, the popular lawyer of the 11th congressional district, passed through here en route to Lancaster on official business, and he says "old Frank" is only having a play spell to defeat Fineley for Congress.

S. M. Spoonamore is making a stroke in the right direction by building a house in our town on Lancaster street. If a few more efforts were made in that direction it would improve our town and yield a handsome income to the land owners.

Engleman & Farris' stage running from Lancaster to Danville is getting \$30 per month for hauling express, \$10 for hauling mail and going loaded every day with passengers at \$1 per trip. Good luck to them and their good clever conductor, Mr. Farris.

Two young men in our midst went to Danville to hear Barnes preach some nights ago, and owing to a late start, took so much interest in the doctrine that it was almost crow-p time before they returned; and judging from the mud on their buggy, toll money must have run short.

Does the democratic party advocate free trade in foreign productions?

It does not.

Did President Cleveland in his message to Congress advise this free trade?

Not at all.

Is the Mills bill a free trade measure?

It is not.

Does the Democratic National platform demand free trade?

Not in any respect.

What then do republican papers mean when they say that the democrats want free trade?

They mean to lie, that is all.—Athens, Ohio, Journal.

LANCASER, GARRARD COUNTY.

John Brewer and Hugh Logan are in Cincinnati trying to prevent the "Fall of Babylon."

Sam Engleman is chuckling to himself because he failed to plant a tobacco crop this season.

The grand jury adjourned after finding 12 indictments. It was as good one as ever sat in our court-house.

H. C. Kaufman wears a very pleasant smile. He is well satisfied with himself, having been quite successful with his cases in court.

The green grass is growing all over the wheat stacks, the tobacco is "frenching" and the rain comes down like the waters at "Lodore."

Judge Morrow is winning golden opinions from the people because of the impartiality of his rulings and the way he runs his court. He will have order.

The attempt of the heirs of the late Neze Best to break his will, because the land was entailed, was thrown out of court before it went to the jury by Judge Morrow.

The republicans of Garrard held a convention on Monday and sent nine delegates to the Danville convention. It is likely there will be more than one candidate before the convention.

What Lancaster is famous for: The finest physicians, the smartest lawyers, the best posted politicians, the most skillful fishermen, the best shots, the slickest card players and more cows, hogs and dogs than any town of its size on earth.

While climbing into a spring wagon Tuesday a negro woman named Byers caught hold of a cedar mill in the wagon which gave way and the woman falling the mill was precipitated upon her, killing her instantly. The coroner's jury rendered a verdict of accidental death.

Sam Burdett writes that the democrats of Nebraska are in high feather and have no doubt of carrying the Legislature and probably the State and electoral tickets at the November election. It do begin to look like Kansas will be the only State to go for Blaine.—I mean Ben.

In the damage suit against the Standard Oil Company, by Robert Kinnaird, for the ruining of his spring, Judge Morrow instructed the jury to find for the defendant. The Oil Company has a deposit for the storage of oil here and the leakage from same strikes the stream which supplies Kinnaird's spring, rendering it unfit for use.

Master H. Clay Hamilton is visiting his mother in Nicholasville, John Woodcock, wife and son and Mr. Wm. Ferguson are attending the Barnes meetings at Independence, Ky. Mrs. Betsy Johnson has sold most of her household effects and will remove to her parents home in Iowa. Mrs. Bettie Miller and three children, of Irvine, are at Mrs. Susan Anderson's, on the road to Greensburg, Ind. C. W. Sweeney and family go to Cincinnati and New York in a few days.

The "Benevolent Society," a brotherhood of colored citizens which has been in operation in Lancaster several years, deserves especial mention. The monthly dues are nominal and the benefits large. There is a benefit for sickness or accident, and when a member dies the order buys the coffin and sees him decently buried. The Society owns its own hall and has quite a sum in the treasury. Al. Bumem has been treasurer for 5 years, without a bond, and has not skipped to Canada either. The Order saves the country many dollars.

CRAB ORCHARD.

Another circus is advertised to show here September 8th.

Most of the guests have left the C. O. Springs. The band will leave next week.

Mr. W. T. Stephenson had one of his most valuable cows killed on the railroad last week.

The protracted meeting at the Walnut Flat church closed last Tuesday night with two additions.

Miss Alice Stuart has returned from the Cincinnati Exposition. Mrs. S. F. H. Tarrant of Birmingham, is the guest of Mrs. C. McAlister. Miss Bettie McFad, of Versailles, who has been visiting the Misses Stuart, returned home this week accompanied by Miss Lula Stuart. Miss Sallie Hackley, of Newport, is visiting Mrs. J. T. Higgins. Mrs. M. Livingston and Miss Laura Hooper paid a short visit to Stanford friends. Mr. A. E. Gibbons, of Danville, attended the Governor's ball and remained over until Sunday. Mrs. C. McAlister, Misses Katie Hays and Katie James spent several days with Miss Sabra Hays near Stanford.

H. H. Colyer sold to various parties 800 mountain sheep at \$3; to W. D. Greig 100 lambs at 4 cents, and to Col. O. H. Cheatum 100 hogs at 5 cents.—[Bingham Ulman.

Mr. M. W. Carpenter will sell the personality of his late husband, John H. Carpenter, September 27. A large lot of cattle and other stock is advertised. See notice elsewhere in this issue.

Mr. John Engleman continues to be the boss watermelon raiser. He had three in town Tuesday that weighed together 126 pounds, the largest 45. They were of a splendid variety, too, as we know from the one he left at our house. If anybody can beat this let him call around with it and take the premium.

Raining against the record is a little on the ordinary line, but then this is an era of record breaking. S. P. Kerr has bought this season 100,000 bushels of wheat in this, Fayette, Bourbon and Madison counties at prices ranging from 70 to 75 cents.—[Winchester Democrat.

In concluding a speech at Indianapolis Ex-Senator McDonald said: "From all the considerations mentioned, it to me seems plain that Indiana in the contest now approaching will go overwhelmingly democratic, and that Grover Cleveland will be our President for four years more."

DEATH'S DOINGS.

The family received a dispatch from the Superintendent of the Anchorage Asylum yesterday conveying the sad intelligence of the death of Capt. William Fortunatus McKinney, who had recently been sent there with the hope that his mind, which, in sympathy with his bodily suffering, had become impaired, would be benefited. Deceased was born at McKinney Station 65 years ago and with the exception of four years spent in the Federal army as Captain of Co. K in the 19th Kentucky regiment, he has lived in this county. Just before the declaration of war, he was married to Miss Bettie Givens, and their first child, a boy, was born while he was with his command in the South. The little fellow lived only a few years. The children that survive him are Miss Annie, Walker B. and Frank; pretty little Lettie, the youngest, and to whom he was devotedly attached, having predeceased him to the tomb a little over two years. In early life Capt. McKinney attached himself to the Presbyterian church and served it in the capacity of an Elder both here and at Hustonville. A conscientious Christian and a warm-hearted man, true to his friends, he was highly thought of wherever known and was especially loved by the members of his Company, for whom he retained the greatest affection.

In the service of his country he contracted chronic dysentery, with which he has since suffered and which was the cause of his mental trouble. He had been doing well in the Asylum and when his son, Walker, visited him last week, he thought him much improved. The suddenness, therefore, of his death fills with severe weight upon his wife and children, who in their affliction have the tender sympathy of many warm hearts.

May the Lord temper their loss to their spiritual benefit and unite them at last around the great white throne in heaven. Mr. J. W. Alcorn started after the remains yesterday and the burial will occur at Buffalo Cemetery this afternoon after a sermon by Rev. A. S. Motley at 3:30 at the Presbyterian church.

TARIFF.—This is Allen G. Thurman's definition of it: "The tariff is nothing but a tax imposed by the General Government upon goods, wares and manufactures imported into the United States for sale, the effect of which is to raise the price of everything upon which it is put, and not only to raise the price of the articles upon which it is put, but to raise the price of similar articles that are manufactured in this country."

BLAINE, the mouthpiece of the money devils, said of trusts in his Portland speech last week: "They are largely private affairs, with which neither President Cleveland nor any private citizen has any right to interfere." In his message Grover Cleveland, who always champions the cause of the people, says: "It is notorious that competition is too often strangled by combinations quite prevalent at this time, and frequently called trusts, which have for their object the regulation of the supply and price of commodities made and sold by members of the combination. The people can hardly hope for any consideration in the operation of these selfish schemes." You can take your choice of the above without paying it.

The democratic committee will send out a million copies of the President's Fisheries message. This in addition to the circulation given it by the newspapers will give the excellent document a pretty good send off.

To yesterday there had been 159 cases of yellow fever and 23 deaths at Jacksonville, Fla.

This Courier-Journal publishes a plain and straightforward statement of the record of Ben Harrison, prepared by Senator Bailey, of Indiana, which shows the fact that Benjamin is an enemy of the workingmen; established by sworn evidence his connection with the men who were ready and willing to suppress a railroad strike with the military power of the State, and puts a quietus upon any hope the republicans may have had to secure the labor vote.

The Indianapolis Journal, with a great flourish of trumpets, denied the charge that Gen. Harrison, during the famous railroad strike, advocated "the shooting of the strikers down like dogs," and offered \$2,000 for proof of it. A Knight of Labor has procured the necessary proof and claimed the reward, but the General's organ will no doubt crawl out of the country.

SEVERAL of the French railway companies and other public bodies have adopted the practice of having their printing done on green instead of white paper. The reason for this alteration is that they have concluded that the combination of white paper with black characters endangers the eyesight of their work-people. Black on green has always been recognized as a good combination for this purpose, and many railway tickets are so printed.

DAN SLAUGHTER, OF DRIPPING SPRINGS

Takes a Little Journey, In Which He Mixes up Business, Pleasure and Religion.

LEBANON, KY.—DEAR FRIENDS:

When one starts on a journey he generally has some object and some point of destination in view. My object was first to gain some badly needed rest, hear Bro. Barnes and work up a crowd for the R. R. excursion to Dripping Springs, which occurs on the last day of August and the first day of September, and having accomplished all to my entire satisfaction, and arrived at my point of destination, I will now tell you something of my trip. Leaving "The grand old spring that drips and drips," in the same old "stage coach" that so many of you have journeyed in this summer, with the proprietor of the Commercial Hotel at Junction City as my companion, while our wives were left pining and disconsolate widows at Dripping Springs, (because we were not going away for a longer period) and having only 30 minutes to catch the train, we had to drive like a perfect cyclone (the devil) to arrive in time. All went well until we reached the river hill, when the "old woman" got frightened and threw her hand-box out of the window and sat down on the cat, the cat equalled and scratched the little poodle dog in the eye, which made him howl so mournfully that it scared the horses and they ran off, the wheel struck a rock and the "stage coach turned over." Notwithstanding all this mishap, we arrived at the depot 5 minutes ahead of time to find the train late, which was another proof that half the worry and fret of this life is entirely unnecessary.

At Junction City I met Bro. Morrison, of Danville, who had paid us a visit this summer, and at Stanford and Danville, as well as on the train, I met a great many Dripping Springs people, and at first it was my intention to give them all a personal mention in this letter, but I find they are too numerous for me to attempt to do so. They all gave me so kind a greeting that I was glad to meet them. All Dripping Springs people wear a "tag mark" by which I can tell them whenever I see them—their bright and cheerful countenances and their pleasant smiles. And speaking of "tag marks" reminds me. I want to tell you something about Bro. Barnes. I went to hear him at Danville and I wore my "tag mark"—the Dripping Springs badge—and before the sermon commenced I think I attracted more attention than Bro. Barnes, or either of "the girls." That's all right; that's what I wore it for, precisely—to attract notice. Bro. Barnes had a crowded house. Bro. Morrison and lots of other preachers were there and he preached for two hours and preached right at them. I hope it did them good. I know it did me, and his sermon did not seem 30 minutes long, although I do not take kindly to his hog and goat heaven, especially the mosquito part of it, for they came near eating me up at the Gilcher House that night, during a two hours' nap. And I hope when the devil is killed forever that the mosquito will go with him. God may have made everything else in this world, but I believe the mosquito is the work of the devil, for he is a very devil himself. (We don't have such things at Dripping Springs.)

Bro. Barnes illustrated the march to Heaven by a moving array; first the advance guard, then the main body and then the rear guard, and said that all would be received according to their "tag mark." I am not ashamed of my "tag mark," "Dripping Springs." Why should I be? Not only has Dripping Springs saved the lives of many persons, but also the souls of many.

About the time I commenced building there poor old Bro. Pond labored hard at Tyrone for two weeks without a single confession; when my bath-room was going up Bro. Noel preached in it and 6 souls were saved. Then Bro. Barnes came and preached ten days here, followed by a meeting at Tyrone, and there were 36 additions to the church, and a "Baptist" church at that.

Leaving Danville at midnight I arrived at Junction City a few minutes later

and had a splendid night's rest at that elegant hotel, the Tribble House. After an excellent breakfast next morning and asking for my bill I was informed that there was no charge against me and that the late-night was on the outside whenever I choose to pull it. Now I will just here state that while I am no dead-beat and don't care particularly for the amount of a hotel bill, one can't help but feel kindly toward one who treats him with such courtesy and respect. Here's to you, Mr. Tribble, may you live long and prosper. This is not the first time by a long sight that my badge has "dead-headed" me through. So you see it is a good thing to have a "tag mark," not only for the hereafter, but for the present world also. At Junction City I attended services at the Christian church and had the pleasure of driving a nice young lady home, but will not tell her name, as my wife might raise a row about it. I also made a call at Linnett and Alum Springs, but I can't say that I was very enthusiastically received by either proprietor. But at Lebanon, don't talk! It was just too sweet for anything! Oh, for the pen of a "Falcon," that I might describe my visit there, but not having it, and knowing I cannot do it justice, I will not even attempt it.

When passing up the street in a strange town, how pleasant it is to have your name called first from one side of the street and then from the other, by little girls, big girls, married ladies and single ladies, then the warm grasp of the hand, the kindly smile, the honest beam in the eye, which tells that it is no sham, but that they are actually glad to see you, then how nice it is to have the little girl, the middle-sized girl and the big girl run down the walk to meet you, when they see you at the gate, even if you are a married man. All this happened to me at Lebanon, and more, but I am not going to tell about that little white ribbon, or the rose bud, or the button-hole bouquet, or anything about that poetical story, but when I arrive at home with the badges, the ribbons and the flowers pinned all over me, I imagine I will present an appearance similar to a character I knew in my school-boy days at Richmond, Judge Epperson.

At Lebanon I attended services at the Catholic church and also at the Baptist church, which made four services I attended in 24 hours, and I think my good Baptist brethren will agree that this is a sufficient atonement for all the dancing I may have done at Dripping Springs this summer, even if it were wrong to dance, and I am sure that it is not.

Five miles below here is located St. Mary's College, the place where I received what little education I have. A quarter of a century has passed since that time. How I would like to visit the place, but time and business will not permit. At Lebanon I find in my old schoolmates many prominent men. I notice in the last INTERIOR JOURNAL an account of the nomination for governor of Missouri my old chum, David Francis, of St. Louis. I have been an interested watcher of his upward career. First elected mayor of St. Louis, then prominently spoken of for the Vice-Presidency and now nominated for governor of St. Louis, which is equivalent to being governor, and said to be worth a half a million, how glad I am of his success, for he deserves it all. Well do I remember the first time I ever stayed all night with him. It was at Richmond, in the old brick house on the corner, in front of Lancaster avenue. We slept up stairs in the big attic. When I got in bed David blew out the light and went to the far end of the room and kneeled down and prayed for fully ten minutes. It made me feel very queer. I had never been taught to pray. Fathers and mothers, teach your children to pray. The Bible teaches us that we should all pray, also that we should be kindly affectioned one toward another. How little it costs one to give a pleasant greeting, or a kindly smile to every one we meet, and how little we can tell the pleasure and happiness that some little word and smile will sometimes carry with it.

And now in conclusion, friends everywhere and ladies of Lebanon especially, God bless you all. You can't imagine how pleasant you made my visit to your town. It is now past 10 o'clock and Bro. Barnes is about singing his farewell closing song at Danville, "God be with you till we meet again." Can I say anything better than that? Good-bye.

D. G. SLAUGHTER.

LATER.—I find upon my arrival home some new visitors, among whom is Mr. J. T. Ewing, of Lebanon, and Mr. Len G. Edelin, of Alum Springs, who is making his second visit this season. The Stolls and Miss Georgie Davids, the Louisville actress, who have spent the entire summer here, will remain for sometime yet. To-day while Miss Georgie was at rehearsal on the mountain side, I determined to hear her. Slowly and carefully I approached, working my way from rock to rock and crag to crag, until I came within a few feet of her and undiscovered I heard an entire play rendered, which thousands of persons will pay many dollars to hear during the coming season.

There quite a nice little crowd here now, and we expect a large addition on Friday's and Saturday's excursions, provided the weather is favorable.

Saturday night and Sunday will be a nice time to spend at Dripping Springs, as we will have a big dance and lots of good things to eat. The hotel will be open until the first day of October.

Respectfully, D. G. S.
